<u>**Y2 Computing Workshop Feedback**</u>
Contextual Information

59/93 (63%) parents signed up for the Workshops held on 24/10/24 - 26/10/24. Of that 59, 43 actually attended (46% of the year group). A Google Forms survey was sent after the event and 7/43 parents responded (16%).

Responses
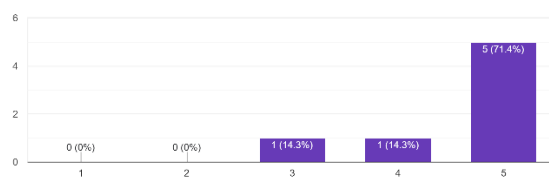

The following feedback was received –

1)

Did you feel that the information provided was easy to understand?
7 responses

2)

How useful did you find the workshop?
7 responses

3)

Did you feel the workshop was well-organised?
7 responses

4)

Did you find it beneficial to have your child attend the first part of the workshop with you?
7 responses

5) Which part of the workshop did you find the most helpful? 7 responses

- All the parts
- The fact that students knew everything like the navigation and they were self reliant.
- Online Safety

- Watching Anum navigate through the apps and use the badge to log in. Was helpful to see how everything works.
- The online safety talk was helpful to have in person.
- All of it - was great to have the information and then to see the kids practically login and have a go.
- How to support my child best at home and safely.

6) Are there any other aspects of Computing or Online Safety that you would have liked to have been covered? 4 responses

- No
- Ideal screen time for children.
- Nil
- No, it was great thanks.

7) Do you have any other comments regarding the workshop? 6 responses

- Thank you
- It would've been nicer to have the children to stay a bit longer. Maybe upload a step by step video or how to do it that parents can access online as there was lots of parents finding it difficult and some of those might not have been able to attend for various reasons.
- Thank you Mr Westway. Very informative and great to see the progress the children are making.
- I felt that the time we had to explore the apps with the children wasn't long enough. Also now having received the QR code I am finding it confusing to know exactly what needs to be done.
- It would be good to have a session on school once parents have had a few weeks to use it, in order to troubleshoot through any problems or ask questions ect.
- Great workshop giving all of the necessary information. Loved working with my child too.
- Really helpful and lovely to be able to be involved with my child in school.

Implications

- Next Year's letter for QR codes will include screen shots for extra clarity.
- During the workshop, there were discussions about amount of screen time and lack of written homework and, subsequently handwriting practise. Handwriting homework is going to be started after Autumn half-term. Regarding screen time, advice from Nicola is now that it is not so much about how much screen time but more about how much purposeful, educational screen time.
- One class's children came in much later than the others so it may be that class where time was observed. Next year, ensure all children are in for 10-15 mins.
