# Year 1 Parent Meeting 2024

We had 57 parents attend the meeting. We received 8 responses from parents via Google Forms.
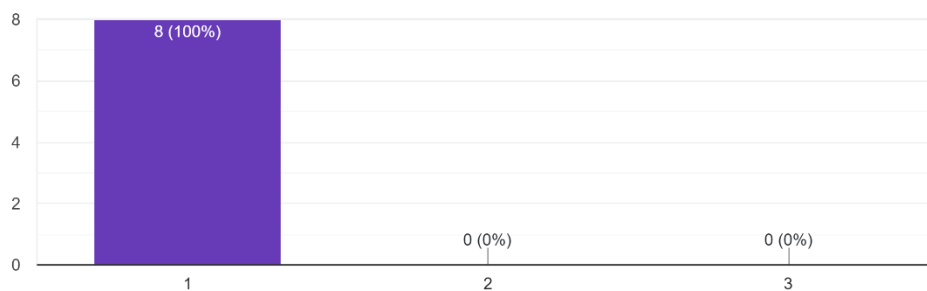

1.   The workshop met your needs.
8 responses

2.   The presentation was informative.
8 responses

3. Which part of the workshop did you find the most helpful?

(8 responses)

- All
- All part
- All of parts were good
- Knowing the targets and what is expected of the students
- Writing
- All of it
- The curriculum plan for the year ahead

4. Was there any further information that you would have liked to receive at the workshop?

(8 responses)

- N/a

- ○ N/a
- ○ All good
- ○ No it was enough
- ○ Would have liked the computing workshop to be incorporated to this, saved me taking time off work to attend school again
- ○ Login details for new accounts, especially if we cannot attend the computing workshops
- ○ Minutes of workshop

5. Do you have any other comments regarding the workshop?

(4 responses)

- ○ Informative Workshop and appreciated it as it was after school really helps for working parents thank you
- ○ Found it too long
- ○ I would have preferred not to have watched the videos, and the presentation to be only 30 mins as per email
- ○ Not with this workshop, but the computing workshops are all during the day and due to work me and my husband cannot attend: there should be an Afterschool option for that too.

Implications

The content of the presentation shall remain the same as parents found the information useful and informative.

The workshop was not able to begin on time due to parents collecting their children and booking them in to the onsite crèche run by our staff. The high volume of children booked into the crèche therefore meant that the workshop ran slightly longer than the 30 minutes as advertised. It may be beneficial to run the workshop during the day to eliminate this process.

The workshop presentation is uploaded to the website to access and handouts are being distributed at consultation evening to ensure that all parents, whether they were able to attend the workshop or not, will have equal access to these documents. This information was shared with parents at the workshop.

We explained that login details would be sent home alongside the launch of the new spelling platform the following week as children were practising using them in school and there was a workshop available to parents to allow them to practise using these with their child in school. These were sent out with a letter explaining how to use them.

The computing workshop is within the school day to allow parents to work alongside their child.
