

We are Year 2

During the summer holiday, it would be lovely if you could work with your child to create a project about themselves or something they love to share with their new teacher (maybe a hobby they have). This topic can take any form that the children choose and can be as creative as you would like!

Some ideas for what you might like to create include:

- poster
- model
- video
- news report
- Shield
- T-shirt

Please bring your project on the first day back after the summer holidays to share with your class.
